PLACE HOLDER DOCUMENT

FOIA Case Number: EPA-R10-2022-000293

Description: Records related to the Harbor Island Superfund Site, East Waterway Operable Unit in Seattle, Washington:

- (1) All internal (EPA) communications from 1/1/2018 to the present regarding the use of "natural" and/or "anthropogenic" and/or Washington State "regional" background concentrations in the Proposed Plan for the East Waterway Operable Unit of the Harbor Island Superfund Site.
- (2) All external communications with other agencies, Tribes, community organizations/members, responsible parties and their representatives (including consultants) from 1/1/2018 to the present regarding the use of "natural" and/or "anthropogenic" and/or Washington State "regional" background concentrations in the Proposed Plan for the East Waterway Operable Unit of the Harbor Island Superfund Site.
- (3) All Draft Final or Final documents supporting the pending Proposed Plan for the East Waterway Operable Unit of the Harbor Island Superfund Site, including the Remedial Investigation, Feasibility Study, and all Anthropogenic Background documents, including the Final 2020 Memorandum and modeling documents referenced therein.
- (4) All comments received on the Draft Final or Final documents referenced in (3) above and EPA's responses to those comments.

Records responsive to this request were provided to the requestor in their native MS Excel file format. Copies of the responsive records provided in their native file format are available upon request from the contact below.
